

CURRICULUM VITAE

Joshua A. Burk
College of William & Mary
Department of Psychology
P.O. Box 8795
Williamsburg, VA 23187
jabur2@wm.edu
757-221-3882 (office)
757-221-3896 (FAX)

Last Updated: August 2020

Education:

- 1999 Ph.D., Experimental Psychology from the University of New Hampshire
Thesis: Effects of Prefrontal Cortical, Hippocampal, and Intralaminar Thalamic Nuclei Lesions on a Seven Choice Serial Reaction Time Task
- 1999 M.S.T., College Teaching from the University of New Hampshire
- 1996 M.A., Experimental Psychology from the University of New Hampshire
Thesis: Excitotoxic Lesions of the Nonspecific Nuclei, but Not the Medial Dorsal Nucleus Lead to Deficits on a Delayed Matching to Sample Task
- 1993 B. S., Psychology (Biological Emphasis) from the University of California, Davis

Current Academic Appointments:

- 2017-present Professor, Department of Psychological Sciences, William & Mary
- 2016-present Chair, Department of Psychological Sciences, William & Mary
- 2016-present Faculty Affiliate, Neuroscience Program, William & Mary
- 2009-present Faculty Affiliate, Department of Applied Science, William & Mary

Previous Academic Appointments and Research Positions:

- 2008-2017 Associate Professor of Psychology, William & Mary
- 2011-2015 Director, Neuroscience Program
- 2010-2011 Faculty Affiliate, Neuroscience Program, William & Mary
- 2002-2008 Assistant Professor of Psychology, William & Mary
- 2001-2002 Postdoctoral Research Associate, Department of Psychology, Ohio State University
- 1999-2001 Postdoctoral Fellow, Department of Psychology, Ohio State University

- 1994- 1999 Teaching Assistant, Department of Psychology, University of New Hampshire
- 1993- 1994 Research Assistant for John Capitanio, California Regional Primate Center
- 1993- 1994 Research Assistant for Chris Tromborg, University of California at Davis Animal Facilities

Edited Book

Burk JA, Fadel JR (eds.) (2019) *The orexin/hypocretin system: Functional roles and therapeutic potential*. Elsevier, NY.

Publications * =denotes W&M undergrad ** =denotes W&M grad student

50. Dickter, C. L., Burk, J. A., Anthony, L. G., Robertson, H. A., Verbalis, A., Seese, S., Myrick, Y., & Anthony, B. J. (in press). Assessment of Sesame Street online autism resources: Impacts on parental implicit and explicit attitudes towards autistic children. *Autism*.
49. Dickter CL, Burk JA (in press) Classroom supports. In *Supporting neurodiverse college student success: a guide for librarians, student support services, and academic learning environments*. Coghill EMH, Coghill JG (eds.) Rowman & Littlefield Publishing, Lanham, MD.
48. Dickter CL, Burk JA (in press) The role of social anxiety in autism and the Broader Autism Phenotype: evidence from childhood through adulthood. In *Factors affecting neurodevelopment*. Martin C, Preedy VR, Rajendram R (eds.). Elsevier, NY.
47. Lipson J, Taylor C, Burk JA, Dickter CL (2020) Perceptions of and behavior toward university students with autism. *Basic and Applied Social Psychology*, 42, 354-368.
46. Dickter CL, Burk JA, Zeman JL, Taylor SC (2020) Implicit and explicit attitudes toward autistic adults. *Autism in Adulthood*, 2, 144-151.
45. Burk JA, Maness EB, Blumenthal SA, Fadel J (2019) Orexins and cognition: neuroanatomical and neurochemical substrates. In *The orexin/hypocretin system: Functional roles and therapeutic potential* (eds. Burk JA, Fadel JR). Elsevier, NY.
44. Burk JA, Blumenthal SA, Maness EB (2018) Neuropharmacology of attention. *European Journal of Pharmacology*, 835, 162-168 (Invited review for a Special Issue, *50 Years of EJP*).
43. Dickter CL, Burk JA, Fleckenstein K*, Kozikowski CT** (2018) Autistic traits and social anxiety predict differential performance on social cognitive tasks in typically developing college students. *PLOS ONE*, 13(3): e0195239
<https://doi.org/10.1371/journal.pone.0195239>
42. Burk JA (2017) Reducing falls in a model of impaired cognitive control of attention (Commentary on Kucinski et al.). *European Journal of Neuroscience*, 45, 215-216 (invited commentary).

41. Hunt PS, Burk JA, Barnet RC (2016) Adolescent transitions in reflexive and non-reflexive behavior: Review of fear conditioning and impulse control in rodent models. *Neuroscience and Biobehavioral Reviews*, 70, 33-45 (Invited review for a Special Issue, *The Adolescent Brain*).
40. Kozikowski CT**, Burk JA (2016) Promoting cognitive flexibility under attention-demanding conditions in aged rats. *Current Aging Science*, 9, 144-149.
39. Zajo KN**, Fadel JR, Burk JA (2016) Orexin A induced enhancement of attentional processing in rats: role of basal forebrain neurons. *Psychopharmacology*, 233, 639-647.
38. Burk JA (2013) Roles of cholinergic receptors during attentional modulation of cue detection. *World Journal of Pharmacology*, 2, 84-91.
37. Hardcastle K*, Smith GD, Burk JA (2013) A population activity model of cortico-striatal circuitry underlying behavioral inhibition in rats. *Globus Pallidus: Regional Anatomy, Functions/Dysfunctions and Role in Behavioral Disorders* (eds. Gordon CR, Abbadelli TG) . Nova Science Publishers, Hauppauge, NY, pp. 67-92.
36. Hirsh AH**, Burk JA (2013) Repeated exposure to a visual distracter enhances new discrimination learning and sustained attention task performance in rats. *Behavioural Processes*, 92, 147-151.
35. Barnet RC, Hunt PS, Burk JA (2012) Cognitive consequences of adolescent and adult nicotine exposure: utility of animal models. *Nicotine Addiction: Prevention, Health Effects and Treatment Options* (ed. Di Giovanni G). Nova Science Publishers, Hauppauge, NY, pp. 171-202.
34. Robinson AM**, Mangini DF*, Burk JA (2012) Task demands dissociate the effects of muscarinic M1 receptor blockade and PKC inhibition on attentional performance in rats. *Journal of Psychopharmacology*, 26, 1153-1160.

 13. Nelson CL, Burk JA, Sarter M, Bruno JP (2002) Effects of acute and repeated systemic administration of ketamine on prefrontal acetylcholine release and sustained attention performance in rats. *Psychopharmacology*, 161, 168-179.
 12. Arnold HM, Burk JA, Sarter M, Bruno JP (2002) Differential cortical acetylcholine release in rats performing a sustained attention task versus behavioral control tasks that do not explicitly tax attention. *Neuroscience*, 114, 451-460.
 11. Mair RG, Koch JK, Newman JB, Howard J, Burk JA (2002) A double dissociation

- within striatum between serial reaction time and radial maze delayed nonmatching performance in rats. *The Journal of Neuroscience*, 22, 6756-6765.
10. Burk JA, Mair RG (2001) Effects of dorsal and ventral striatal lesions on delayed matching trained with retractable levers. *Behavioural Brain Research*, 122, 67-78.
 9. Burk JA, Mair RG (2001) Effects of intralaminar thalamic lesions on sensory attention and motor intention in the rat: a comparison with lesions involving frontal cortex and hippocampus. *Behavioural Brain Research*, 123, 49-63.
 8. Burk JA, Sarter M (2001) Dissociation between the attentional functions mediated via basal forebrain cholinergic and GABAergic neurons. *Neuroscience*, 105, 899-909.
 7. Porter MC, Burk JA, Mair RG (2000) A comparison of the effects of hippocampal or prefrontal cortical lesions on three versions of delayed non-matching-to-sample based on positional or spatial cues. *Behavioural Brain Research*, 109, 69-81.
 6. Burk JA, Mair RG (1999) Delayed matching-to-sample trained with retractable levers is impaired by lesions of the intralaminar or ventromedial but not the laterodorsal thalamic nuclei. *Psychobiology*, 27, 351-363.
 5. Mair RG, Burk JA, Porter MC, Ley JE (1999) Thalamic amnesia and the hippocampus: Unresolved questions and an alternative candidate. *Behavioral Brain Sciences*, 22, 458-459.
 4. Burk JA, Glode BM, Drugan RC, Mair RG (1999) Effects of chlordiazepoxide and FG 7142 on a rat model of diencephalic amnesia as measured by delayed-matching-to-sample performance. *Psychopharmacology*, 142, 413-420.
 3. Burk JA, Mair RG (1998) Thalamic amnesia reconsidered: excitotoxic lesions of the intralaminar nuclei, but not the mediodorsal nucleus disrupt place delayed matching-to-sample performance in rats (*Rattus norvegicus*). *Behavioral Neuroscience*, 112, 54-67.
 2. Zhang Y, Burk JA, Glode BM, Mair RG (1998) Effects of thalamic and olfactory cortical lesions on continuous olfactory delayed nonmatching-to-sample and olfactory discrimination in rats (*Rattus norvegicus*). *Behavioral Neuroscience*, 112, 39-53.
 1. Mair RG, Burk JA, Porter MC (1998) Lesions of the frontal cortex, hippocampus, and intralaminar thalamic nuclei have distinct effects on remembering in rats. *Behavioral Neuroscience*, 112, 772-792.

Manuscripts Under Review or In Preparation

- Blumenthal SA**, Maness EB**, Fadel J, Burk JA (in preparation) Effects of an orexin-2 receptor agonist on attention following loss of cortical cholinergic inputs.
- Maness EB**, Blumenthal SA**, Burk JA (in preparation) Dual orexin receptor antagonism attenuates acute dizocilpine-induced attentional impairments.
- Taylor SC*, Blottner M*, Burk JA, Dickter CL (under review) Differences in the N170 event-related potential during emotion identification as a function of autistic behaviors.
- Dickter CL, Burk JA (under review) The effects of contact and labeling on attitudes towards individuals with autism.

Maness EB**, Pattanayak S, Burk JA (in preparation) Dissociable effects of orexin A in two rat models of schizophrenia.

Honors

- 2016 Plumeri Award for Faculty Excellence
 2013-2015 English-Stonehouse Faculty Fellow
 2013 Phi Beta Kappa's John D. Rockefeller Award for Advancement of Scholarship
 2011 Raymond L. Erickson Award, University of New Hampshire
 • Award given to one UNH doctoral program alum each year
 2002 Young Investigator Award, The National Alliance for Research on Schizophrenia & Depression (NARSAD)
 1999 NIMH Training Grant Award
 1998 Dissertation Year Fellowship, University of New Hampshire

National/International Conference Presentations

110. Maness EB**, Blumenthal SA**, Burk JA (2019) Dual orexin receptor antagonism attenuates dizocilpine-induced attentional impairments in a rat model of acute psychosis. *Society for Neuroscience Meeting*.
 109. Burk JA, Patel R*, Maness EB**, Blumenthal SA**, Fadel J (2019) Effects of medial prefrontal cortical administration of the orexin-1-receptor antagonist, SB-334867, on attentional performance in rats. *Society for Neuroscience Meeting*.
 108. Blumenthal SA**, Maness EB**, Fadel JR, Burk JA (2019) Effects of an orexin-2 receptor agonist on attention following loss of cortical cholinergic inputs. *Society for Neuroscience Meeting*.
 107. Zeman J, Dickter C, Burk J (2019) Implicit attitudes towards adults with autism: a multi-study investigation. *International Society for Autism Research meeting*.
 106. Burk JA, Hamborg MR*, Van Valkenburgh A*, Dickter CL (2019) Attention processing of emotion faces in those high and low in autistic traits and social anxiety. *International Society for Autism Research meeting*.

38. Boschen K**, Fadel J, Burk JA (2007) Systemic administration of the orexin-1 receptor antagonist, SB-334867, disrupts attentional performance in rats. *Society for Neuroscience Conference*.
37. Burk JA, Altemose KE*, Lowder MW** (2007) Effects of spatial cueing on visual discrimination performance of rats following loss of basal forebrain corticopetal cholinergic neurons. *Society for Neuroscience Conference*.
36. Burk JA, Ball CT, Shean GD (2006) Relationships between attention, working memory, and schizotypal-like characteristics in humans. *Society for Neuroscience Conference*.
35. Howe WM**, Burk JA (2006) Effects of cholinotoxic and excitotoxic posterior parietal cortical lesions on attention in rats. *Society for Neuroscience Conference*.
34. Burk JA, Hunt PS, Barnet RC (2006). Effects of adolescent administration of nicotine or alcohol on trace and delay fear conditioning. *Paper presented at a conference for the Virginia Youth Tobacco Project*.
33. Howe WM**, Harrington MD*, Burk JA (2005) Dizocilpine-induced attentional deficits are reversed by D-cycloserine in rats. *Society for Neuroscience Conference*.
32. Kondrad RL*, Burk JA (2005) Lesions of the prefrontal cortex, but not the thalamic mediodorsal nucleus, disrupt attentional performance in rats. *Society for Neuroscience Conference*.
31. Johnson RT**, Cameron AP*, Burk JA (2005) Effects of gonadectomy and androgen supplementation on attention in male rats. *Society for Neuroscience Conference*.

30. Burk JA, Musisca NJ**, Barnet RC, Hunt PS (2005) Effects of acute alcohol administration on long delay and trace conditioning in adolescent and adult rats. *Society for Neuroscience Conference*.
29. Newman LA*, Burk JA (2004) Effects of thalamic intralaminar lesions on attention and working memory in rats. *Meeting of the International Behavioral Neuroscience Society*.
28. Burk JA, Woolfrey KM**, Musisca NJ**, Hunt PS (2004) Early postnatal ethanol administration does not affect prepulse inhibition in rats. *Society for Neuroscience Conference*.
27. Woolfrey KM**, Hunt PS, Burk JA (2004) Postnatal ethanol administration disrupts sustained attention performance in rats. *Society for Neuroscience Conference*.
26. McQuail JA*, Burk JA (2004) Effects of muscarinic and nicotinic receptor antagonists on sustained attention in rats. *Society for Neuroscience Conference*.
25. Newman LA*, Burk JA (2004) Effects of thalamic intralaminar nuclei lesions on attention and working memory in rats. *Society for Neuroscience Conference*.
24. Kondrad RL*, Burk JA (2004) Escalating amphetamine transiently increases false alarms in a sustained attention task in rats. *Society for Neuroscience Conference*.
23. Johnson RT**, Yttri E*, Mason D*, Carron C*, Dieckmann R*, Barnet RC, Hunt PS, Burk JA (2004) Effects of adolescent administration of alcohol and nicotine on trace and delay fear conditioning in rats. *Society for Neuroscience Conference*.
22. Woolfrey K**, Hunt PS, Burk JA (2003) Effects of postnatal alcohol administration on sustained attention performance in rats. *Presented at the meeting of the International Society for Developmental Psychobiology*.
21. Martinez V, Burk JA, Sarter M, Bruno JP (2003) Effects of repeated amphetamine administration on attentional performance in rats. *Society for Neuroscience Conference*.
20. Burk JA, Arnold HM, Breitfeller K, Lanker M, Bruno JP, Sarter M (2002) Nicotine-induced enhancement of attentional performance in rats: necessity of chronic and intermittent exposure. *Society for Neuroscience Conference*.
19. Herzog CD, Burk JA, Sarter M, Bruno JP (2002) Cortical acetylcholine release in aged rats performing a sustained attention task. *Society for Neuroscience Conference*.
18. Burk JA, Herzog CD, Porter MC, Mahoney J, Bruno JP, Sarter M (2001) Interactions between partial cortical cholinergic deafferentation and aging on sustained attention performance in rats. *Society for Neuroscience Conference*.
17. Nelson CL, Burk JA, Sarter M, Bruno JP (2001) Effects of acute and repeated ketamine on cortical acetylcholine and sustained attention. *Society for Neuroscience Conference*.
16. Sarter M, Burk JA, Graf A, Russell J, Bruno JP (2001) Basal forebrain cholinergic and GABAergic neurons mediate different aspects of sustained attention performance in rats. *Society for Neuroscience Conference*.
15. Arnold HM, Burk JA, Hodgson EM, Sarter M, Bruno JP (2001) Cortical acetylcholine release in rats performing an operant sustained attention task or operant control procedures. *Society for Neuroscience Conference*.

14. Burk JA, Russell J, Graf A, Bruno JP, Sarter M (2000) Effects of basal forebrain ibotenic acid lesions on sustained attention performance in rats. *Society for Neuroscience Conference*.
13. Mair RG, Koch J, Bapp J, Howard J, Burk JA, Toupin M (2000) A double dissociation of habit and working memory in striatum of rats. *Society for Neuroscience Conference*.
12. Burk JA, Koch J, Mair RG (1999) Effects of intralaminar thalamic, prefrontal cortical, or hippocampal lesions on a seven choice serial reaction time task. *Society for Neuroscience Conference*.
11. Mair RG, Burk JA, Porter MC, Koch J (1999) Only combined lesions of perirhinal cortex and anterior thalamus produce similar effects to hippocampal lesions in radial maze DNMS. *Society for Neuroscience Conference*.
10. Porter MC, Burk JA, Koch J, Mair RG (1999) The effects of permanent striatal lesions or reversible inactivation of ventral striatum or intralaminar nuclei on DMS using position cues. *Society for Neuroscience Conference*.
9. Burk JA, Ley J, Toupin M, Coy E, Koch J, Mair RG (1998) Lesions of the intralaminar (IL) but not ventromedial (VM) or anterior thalamic (AT) nuclei disrupt olfactory continuous DNMS. *Society for Neuroscience Conference*.
8. Burk JA, Porter MC, Seidel LF (1998) Preparing graduate students for academia: The preparing future faculty (PFF) program at the University of New Hampshire. *Society for Neuroscience Conference*.
7. Mair RG, Burk JA, Porter MC, Koch J (1998) Both hippocampal (H) and frontal cortical (FC) lesions impair DNMS trained with retractable levers in a delay-independent fashion. *Society for Neuroscience Conference*.
6. Porter MC, Burk JA, Koch J, Mair RG (1998) Effects of hippocampal (H) and frontal cortical (FC) lesions on radial arm maze DNMS depend on training procedures. *Society for Neuroscience Conference*.
5. Burk JA, Glode BM, Porter MC, Pelletier JR, Mair RG (1997) Place DMTS performance is impaired by discrete lesions of the intralaminar (IL) or ventromedial (VM) but not the laterodorsal (LD) thalamic nuclei. *Society for Neuroscience Conference*.
4. Mair RG, Burk JA, Koch J, Porter MC, Glode BM, Pelletier JR (1997) A comparison of the effects of frontal cortical (FC), hippocampal (HP), and intralaminar (IL) thalamic lesions on two delayed conditional discrimination tasks. *Society for Neuroscience Conference*.
3. Porter MC, Glode BM, Burk JA, Pelletier JR, Mair RG (1997) Differential patterns of impairment on tasks trained in the radial arm maze (RAM) following lesions of frontal cortical (FC), hippocampus (HP), or the intralaminar thalamic nuclei (IL). *Society for Neuroscience Conference*.
2. Burk JA, Glode BM, Pelletier JR, Mair RG (1996) Thalamic amnesia reconsidered: Excitotoxic lesions of the intralaminar nuclei (ILn), but not the mediodorsal nucleus (MDn) disrupt place DMTS performance. *Society for Neuroscience Conference*.
1. Mair RG, Zhang YP, Burk JA, Glode BM, Foye M, Pelletier JR (1996) Thalamic amnesia reconsidered: Excitotoxic lesions of the intralaminar nuclei (ILn), but

not the mediodorsal nucleus (MDn) disrupt olfactory continuous DNMTS.
Society for Neuroscience Conference.

Local Graduate/Undergraduate Conference Presentations

47. Blumenthal SA**, Burk JA (2019) Effects of an orexin-2 receptor agonist on attention following loss of cortical cholinergic inputs. *Presented at the William & Mary Graduate Research Symposium.*
46. Maness EB**, Burk JA (2019) The effects of orexinergic manipulations in a pharmacological model of schizophrenia: identifying novel therapeutic targets. *Presented at the William & Mary Graduate Research Symposium.*
45. Maness EB, Burk JA (2018) The effects of intra-nasal orexin-A on MK-801-induced attentional deficits. *Presented at the William & Mary Graduate Research Symposium.*
44. Maness EB**, Burk JA (2017) Effects of N-desmethylclozapine on attentional performance following loss of basal forebrain corticopetal cholinergic inputs. *Presented at the William & Mary Graduate Research Symposium.*
43. Maness EB**, Burk JA (2016) Effects of Muscarinic-1 Receptor Stimulation on Attentional Deficits Induced by Loss of Cortical Cholinergic Projections. *Presented at the William & Mary Graduate Research Symposium.*
42. Tapp A*, Burk JA (2016) Risky Reward Decision Making in Rats: Effects of Increasing Choices. *Presented at the William & Mary Undergraduate Science Conference.*
41. Leong CS*, Burk JA (2016) Effects of PKC activation on attention deficits following loss of corticopetal cholinergic neurons. *Presented at the William & Mary Undergraduate Science Conference.*
40. Kozikowski CT**, Kittle J*, Tapp A*, Vij P* (2015) Effects of distractor exposure in aged rats. *Presented at the William & Mary Undergraduate Science Conference.*
39. Kozikowski CT**, Burk JA (2014) Interactions between cholinergic and noncholinergic basal forebrain neurons on attentional performance. *Presented at the William & Mary Graduate Research Symposium.*
38. Yanev P*, Altherr E*, Kozikowski CT**, Kittle J*, Burk JA (2014) Interactions between basal forebrain noncholinergic neurons and cholinergic system blockade on attention. *Presented at the William & Mary Undergraduate Science Conference.*
37. Reich C*, Mendoza N*, Hughes C*, MacLeod J*, Burk JA (2014) Effects of nicotine on probability discounting. *Presented at the William & Mary Undergraduate Science Conference.*
36. Otoya D*, Ng A*, Leong C*, McConnell N*, Burk JA (2014) Effects of decreasing light illumination as a visual signal: role of basal forebrain cholinergic neurons. *Presented at the William & Mary Undergraduate Science Conference.*
35. Zajo KN**, Fadel JR, Burk JA (2013) Effects of infusions of orexin A on attentional performance in rats. *Presented at the William & Mary Graduate Research Symposium.*
34. Yanev PG*, Altherr EB*, MacLeod JR*, Pinnoi N*, Wolfe EL*, Zajo KN**, Fadel JR, Burk JA (2013) Effects of intrabasal orexin A administration on attentional

- performance in rats. *Presented at the William & Mary Undergraduate Science Conference.*
33. Menzel LM*, Ng AB*, Yonezaki K, Burk JA (2013) Nicotine and impulsivity: the effects of nicotine cessation and re-exposure on delay discounting in rats. *Presented at the William & Mary Undergraduate Science Conference.*
 32. Zajo KN**, Burk JA (2012) Effects of intrabasalis orexin-A administration on attentional performance in rats. *Presented at the William & Mary Graduate Research Symposium.*
 31. Hardcastle, K*, Smith G, Burk JA (2012) A population-activity model of cortico-striatal circuitry underlying impulsive action selection. *Presented at the William & Mary Undergraduate Science Conference.*
 30. Fujita A*, Yanev P*, Zajo K**, Burk JA (2012) Effects of intrabasalis orexin A on attentional performance. *Presented at the William & Mary Undergraduate Science Conference.*
 29. Haque S*, Agate T*, Bataller H, Wolfe E, Burk JA (2012) Effects of acute nicotine on delay discounting. *Presented at the William & Mary Undergraduate Science Conference.*
 28. Fujita A*, Mian M*, Solano S*, Coughenour P, Moore RH*, Jayasinghe S*, Duckett C*, Roseman P*, Hirsh A**, Burk JA (2011) Validation of a delay discounting task that uses water reward. *Presented at the William & Mary Undergraduate Science Conference.*
 27. Hirsh AH**, Burk JA (2011) Orexins and attention. *College of William & Mary Graduate Research Symposium.*
 26. Jayasinghe S*, Yoo E*, Montgomery M*, Easterling K*, Clifford L*, Minor B*, Hirsh A**, Burk JA (2010) Effects of long-term exposure to distracters on sustained attention task performance and concurrent new discrimination learning. *Meeting of the Society for Young Neuroscientists and Professors in the Southeast.*
 25. Roseman PL*, Liu G*, Younkin J*, Montgomery M*, Yoo E*, Moore RH*, McGarry L*, Burk JA (2010) Development of a novel delay discounting task: evaluation of nicotinic receptor blockade. *Meeting of the Society for Young Neuroscientists and Professors in the Southeast.*
 24. Hirsh AH**, Burk JA (2010) Effects of long-term exposure to distracters on sustained attention task performance and concurrent new discrimination learning. *College of William & Mary Graduate Research Symposium.*
 23. Robinson AM**, Burk JA (2009) Effects of M1 receptor blockade on performance in an attention-demanding task. *College of William & Mary Graduate Research Symposium.*
 22. Boschen K**, Mangini D*, Parekh P*, Burk JA (2007) Systemic administration of the orexin-1 receptor antagonist, SB-334867, disrupts attentional performance in rats. *William & Mary Undergraduate Neuroscience Symposium.*
 21. Marzuk J*, Lowder MW**, Burk JA (2006) Effects of loss of basal forebrain corticopetal cholinergic neurons on visual attentional performance. *William & Mary Undergraduate Neuroscience Symposium.*
 20. Perazza GD*, Burk JA (2006) Effects of excitotoxic posterior parietal cortical lesions on automated radial arm maze performance in rats: a pilot study. *William & Mary Undergraduate Neuroscience Symposium.*

19. Howe WM**, Burk JA (2006) Effects of posterior parietal cortical lesions on sustained attention performance in the rat. *College of William & Mary Graduate Research Symposium.*
18. Aiken JR*, Johnson RT**, Burk JA (2006) Effects of gonadectomy and androgen supplementation on attention in male rats. *Verizon Undergraduate Science Symposium.*
17. Altemose KE*, Howe WM**, Burk JA (2006) Effects of posterior parietal cortical lesions on sustained attention performance in the rat. *Verizon Undergraduate Science Symposium.*
16. Aiken JR*, Johnson RT**, Burk JA (2005) Effects of gonadectomy and androgen supplementation on attention in male rats. *William & Mary Undergraduate Neuroscience Symposium.*
15. Burk JA (2005) NMDA receptors and attention. *Presentation at the undergraduate neuroscience symposium.*
14. Burk JA (2005) Acetylcholine, attention, and aging. *Presentation to the Center for Excellence in Aging and Geriatric Health.*
13. Howe WM**, Burk JA (2005) The effects of D-cycloserine on MK-801-induced attentional deficits in rats. *College of William & Mary Graduate Research Symposium.*
12. Johnson RT**, Burk JA (2005) Androgen-cholinergic interactions: the effects of androgen deprivation and supplementation on attention in adult male rats. *College of William & Mary Graduate Research Symposium.*
11. Dow LA*, Harrington MD*, Palmer KA*, Henwood K*, Burk JA (2004) NMDA receptor antagonists impair attention in rats. *William & Mary Undergraduate Neuroscience Symposium.*
10. Kondrad RL*, Burk JA (2004) Escalating amphetamine transiently increases false alarms in a sustained attention task in rats. *William & Mary Undergraduate Neuroscience Symposium.*
9. Johnson RT**, Ytri E*, Mason D*, Carron C*, Dieckmann R*, Barnet RC, Hunt PS, Burk JA (2004) Effects of adolescent administration of alcohol and nicotine on trace and delay fear conditioning in rats. *William & Mary Undergraduate Neuroscience Symposium.*
8. Woolfrey K**, Burk JA (2004) Effects of postnatal ethanol administration on sustained attention performance in rats. *College of William & Mary Graduate Research Symposium.*
7. McQuail J*, Burk JA (2004) Effects of cholinergic receptor antagonists on sustained attention performance in the rat. *Undergraduate Research Conference of the Colonial Academic Alliance.*
6. Johnson R**, Burk JA, Kirkpatrick L (2004) Salivary testosterone and domain-specific self-esteem. *College of William & Mary Graduate Research Symposium.*
5. Kondrad R*, Burk JA (2003) Effects of repeated amphetamine treatment on sustained attention performance in rats. *Meeting of the Society for Young Neuroscientists and Professors in the Southeast.*
4. McQuail J*, Newman L*, Burk JA (2003) Effects of introducing a retention interval in a measure of sustained attention in the rat. *Meeting of the Society for Young Neuroscientists and Professors in the Southeast.*

3. Newman L*, Burk JA (2003) The effects of thalamic intralaminar nuclei lesions on sustained attention. *Verizon William & Mary Undergraduate Science Research Symposium.*
2. McQuail J*, Burk JA (2003) Effects of cholinergic receptor antagonists on sustained attention performance in rats. *Verizon William & Mary Undergraduate Science Research Symposium.*
1. Burk JA (2002) Role of cortical acetylcholine in attention: implications for aging. *Presentation to Monroe Scholar's Program.*

Current Grants

- 2015-2021 R01, National Institute on Aging [NIA], "Hypocretin/orexin modulation of cognitive correlates of brain aging"; Role: PI on subcontract to W&M; PI: Dr. Jim Fadel (University of South Carolina School of Medicine). Total W&M budgeted subcontract costs: \$332,338 (currently on no-cost extension)
- 2019-2020 Faculty Research Grant, William & Mary, \$6,000

Previous External Grants

- 2017-2018 Virginia Neuroscience Initiative, Virginia Biosciences Health Research Corporation, "Establishment and maintenance of the infrastructure for the Virginia Neuroscience Initiative (VNI). Role: PI, \$87,620
- 2008-2013 R01, National Institute on Aging [NIA], "Aging, Acetylcholine and the Hypothalamus"; Role: PI on subcontract to W&M; PI: Dr. Jim Fadel (University of South Carolina School of Medicine). Total W&M subcontract costs: \$244,584.
- 2006-2009 Virginia Tobacco Settlement Foundation, "Long-term impact of adolescent nicotine on cognitive function", Role: Co-PI; PI: Dr. Robert Barnet. Total costs: \$362,360.
- 2005-2008 Jeffress Memorial Trust, "Posterior parietal cortical acetylcholine and attention"; 2005-2008, Role: PI. Total costs: \$34,000
- 2003-2006 Virginia Youth Tobacco Project (Role: PI), "Adolescent Nicotine and Alcohol Administration and Cognition; Total costs: \$60,000
- 2002-2005 Young Investigator Award (Role: PI), The National Alliance for Research on Schizophrenia & Depression, "Cortical acetylcholine and attention in a repeated amphetamine model of schizophrenia"; Total costs: \$43,901.40
- 1999-2001 NIMH Training Grant Award, Ohio State University

Previous Internal Grants

- 2015 Joint Eastern Virginia Medical School/W&M Collaborative Grant Program, "Neurobiological substrates of anxiety disorders" Role: Co-PI with Larry Sanford, Christopher Del Negro, Gyorgi Lonart and Laurie Wellman; Total costs: \$25,000
- 2015 Joint Eastern Virginia Medical School/W&M Collaborative Grant Program, "The Development and Validation of an Online Intervention to Improve Emotion Identification of Complex Facial Emotions in Young

- Adults with an Autism Spectrum Disorder” Role: Co-PI with Cheryl Dickter, Janice Zeman, Maria Urbano, Kathrin Hartmann and J.D. Ball; Total costs: \$20,000
- 2014 Joint Eastern Virginia Medical School/W&M Collaborative Grant Program, “Enhancing Selective Attention in Young Adults on the Autism Spectrum: Development of an Online Intervention” Role: Co-PI with Cheryl Dickter, Janice Zeman, Maria Urbano, and J.D. Ball; Total costs: \$19,877
- 2014-2015 Creative Adaptation Fund, “Developing a Neurodiversity Curriculum for the W&M Washington, D.C. Office” Role: co-PI with Cheryl Dickter, Karin Wulf, Janice Zeman, John Robison and Joel Schwartz; Total costs: \$40,000
- 2011 Faculty Interdisciplinary Research Grant (co-PI with Dr. Greg Smith in the W&M Department of Applied Science); Total costs: \$10,000
- 1998-1999 Dissertation Year Fellowship from the University of New Hampshire
- 1996-1998 Summer Fellowship from the University of New Hampshire (Awarded three times)
- 1997 Graduate Fellowship from Teaching Excellence Program for Lilly Conference on University and College Teaching
- 1996-1998 Travel Award from the University of New Hampshire (\$200/each; Awarded three times)

Unfunded Grants that Passed Initial Review

Virginia Biosciences Health Research Corporation (July 2017). Copper-based theranostic tools for glioblastoma. 18-month grant. Co-PIs with Myriam Cotton, Bijoy Kindu and Benjamin Purow. Based on LOI, we were invited to give a presentation to VBHRC, but were not funded.

Department of Defense (Nov. 2013). *Emotional face processing in college students with Autistic behaviors: Modification of the PEERS intervention*. 2-year ARP Pilot Award. Co-PIs with Janice Zeman and Cheryl Dickter. Invited to submit full application but not funded

Editorial Boards and Manuscript Reviewing Activities

- 2015-present Review Editor for Neuropharmacology; Frontiers in Neuroscience, Pharmacology, Neurology and Psychiatry
- 2013-present Editorial Board Member, European Journal of Pharmacology
- 2012-present Associate Editor, BMC Neuroscience
- 2011-present Editorial Board Member, World Journal of Pharmacology
- 2012-2017 Editorial Board Member, Dataset Papers in Science: Pharmacology

Ad hoc reviewer (total of 28 different journals):

European Journal of Neuroscience; Journal of Psychopharmacology; Neuroscience Letters; Pharmacology, Biochemistry and Behavior; Behavioural Brain Research; Evidence Based Complementary and Alternative Medicine; International Journal of

Neuropsychopharmacology; Life Sciences; European Journal of Pharmacology; Journal of Neuroscience Methods; Biological Psychiatry; Neurobiology of Learning and Memory; Journal of Undergraduate Neuroscience Education; Psychopharmacology; Brain and Cognition; Brain Research; Synapse; Hippocampus; Physiology & Behavior; Neuropsychopharmacology; Neuropharmacology; Behavioural Pharmacology; Journal of Neural Transmission; Recent Patents on CNS Drug Discovery; Psychoneuroendocrinology; Autism Research; Advances in Geosciences; Journal of Autism and Developmental Disorders

Other Professional Service

- 2016 Co-organizer, Minisymposium, “Hypocretins and orexins: What have we learned in nearly 20 years?” Annual Meeting of the Society for Neuroscience
- 2013-2016 Faculty Council Member, Central Virginia Chapter of the Society for Neuroscience
- 2014 Steering Committee Member, Hampton Roads Neuroscience Network
- 2014 Reviewer, Student poster awards, Central Virginia Chapter of the Society for Neuroscience
- 2012 Grant Reviewer, Canada Foundation for Innovation
- 2012 Member, Virginia Tobacco Settlement Foundation Small Grants Program Review Panel
- 2011 Grant Reviewer, APF/COGDOP Graduate Research Scholarship Program
- 2009-2010 Mentor, Society for Neuroscience conference
- 2007-2008 Chair, Membership Committee, International Behavioral Neuroscience Society
- 2007 Grant Reviewer, South Carolina Research Authority
- 2006 Grant Referee, Neurological Foundation of New Zealand
- 2005-2007 Co-chair, Membership Committee, International Behavioral Neuroscience Society
- 2005 Co-facilitator, session at the Virginia Youth Tobacco Project Conference “Aging/Developmental Stage of Nicotine Dependence”

Invited Talks

- 2017 “Cognitive and emotion processing differences in neurodiverse individuals” Eastern Virginia Medical School (talk given with Cheryl Dickter)
- 2015 “Autistic characteristics of young adults: emotion and attention processing differences” Eastern Virginia Medical School (talk given with Janice Zeman)
- 2014 Neurodiversity Initiatives at William & Mary: Teaching and Research; Virginia Tech (talks given with Janice Zeman)
- 2013 “Cortical cholinergic mechanisms and attention”; Symposium of the Central Virginia Chapter of the Society for Neuroscience
- 2011 “The cortical cholinergic system and cognition: implications for neuropsychiatric disorders”; University of New Hampshire
- 2010 “Cholinergic system regulation and attention”; Presentation at the undergraduate neuroscience symposium, College of William & Mary

- 2009 “The cortical cholinergic system and attention”; Department of Applied Science, College of William & Mary.
- 2005 “NMDA receptors and attention”; Presentation at the undergraduate neuroscience symposium, College of William & Mary.
- 2005 “Acetylcholine, attention, and aging”; Presentation to the Center for Excellence in Aging and Geriatric Health, College of William & Mary.
- 2002 “Role of cortical acetylcholine in attention: implications for aging”; Presentation to Monroe Scholar’s Program, College of William & Mary.
- 2000 “The effects of basal forebrain lesions and distracters on attention”; The Ohio State University
- 1998 “The role of the thalamic intralaminar nuclei and mediodorsal nucleus in diencephalic amnesia”; The Ohio State University

Teaching Experience (full responsibility for all courses, unless noted below)

2002-present Psychopharmacology, Research in Physiological Psychology, Cognitive Neuroscience, Introduction to Psychology as a Natural Science, Graduate Proseminar in Behavioral Neuroscience, Elementary Statistics, Physiological Psychology, Graduate Professional Development Seminar, Freshmen Seminar: Normal and Pathological Aging, Neurodiversity (co-instructor); College of William & Mary

1996- 1998 Introductory Psychology, Statistics, Biopsychology, University of New Hampshire

Current and Previous William & Mary Graduate Students (graduation year in parentheses)

Kevin Woolfrey (2004)
Ryan Johnson (2005)
Matt Howe (2006)
Karen Boschen (2008)
Andrea Robinson (2009)
Andrea Spaeth (2009; co-advised with Prof. Robert Barnett)
Adam Hirsh (2011)
Kristin Zajo (2013)
Teal Kozikowski (2015)
Katie Mitchell (2016; co-advised with Prof. Cheryl Dickter)
Eden Maness (MA in 2017; current doctoral student)
Sarah Blumenthal (2019)
Josh Lipson (2020; co-advised with Prof. Cheryl Dickter)
Bendu Jackson (2020; co-advised with Prof. Cheryl Dickter)

Current and Previous William & Mary Undergraduate Honors Students (graduation year in parentheses)

Joseph McQuail (2004)
Lori Newman (2004)
Robyn Kondrad (2005)

Kathleen Altemose (2007)
 David Mangini (2009)
 Paige Roseman (2010)
 Katy Easterling (2011)
 Liz Wolfe (2014)
 Cassidy Reich (2014)
 Emma Albert-Stone (2015)
 Cassandra Leong (2016)
 Panya Vij (2017)
 Austin Tapp (2017)
 Ellen Yates (2017)
 Jake Feldmann (2018)
 Jessica Seidenberg (2019)
 Stacy Pitcairn (2020)
 Saurav Pattanayak (2020)
 Paige Little (graduation expected fall 2021)
 Grace Smith (graduation expected fall 2021)
 Faye Reid (graduation expected fall 2021)
 Camile Borja (graduation expected fall 2021; co-advised with Cheryl Dickter)

Qualifying Exam Committees

2010 Member, Xueying Wang, Department of Applied Science
 2012 Member, Krishanthi Wergalaarachchi, Department of Applied Science
 2013 Member, Andrew Kottick, Department of Applied Science

Dissertation Committees

Nov 2016, Wiktor Phillips (advisor: Prof. Christopher Del Negro)
 Oct 2017, Nikolas Vann (advisor: Prof. Christopher Del Negro)

Professional Associations

Division 6, American Psychological Association
 Society for Neuroscience
 Faculty for Undergraduate Neuroscience

College Committees (all at W&M)

2019-current	Member, Faculty Assembly
2019-current	Member, Faculty Affairs Committee (co-chair in 2020-21)
2017-current	Member, Institutional Animal Care and Use Committee
2017-present	Member, Committee for Honors and Interdisciplinary Studies
2011-current	Member, Committee of Chairs and Program Directors (formerly Dean's Advisory Council); on leave Fall 2015
2019-2020	Member, Studio for Teaching and Learning Innovation Advisory Council
2017- 2019	Member, Cohen Career Center Committee for Faculty
2011-2016	Member, Integrated Science Center III Building Committee; on leave Fall 2015

2013-2014	Member, Interdisciplinary Studies Working Group
2012-2013	Member, Merit Review Steering Committee
2012-2013	Member, Academic Calendar Advisory Committee
2009-2012	Member, Committee on Graduate Studies
2003-2006	Member, Research on Animal Subjects Committee (IACUC)

Departmental Committees

2019	Member, Search Committee for TE positions in Clinical Psychology
2017	Co-Chair, Search Committee for TE position in Personality Psychology
2011-current	Planning Committee, Department of Psychology (on leave fall 2015)
2015-2019	Member, Search Committee for NTE faculty in Natural Sciences and Personality
2012-2015	Member, Psychology Department Public Relations Committee
2009-2012	Chair, Graduate Studies Committee, Department of Psychology, College of William & Mary (Director of Graduate Studies)
2009	Member, Graduate Studies Committee, Department of Psychology, College of William & Mary
2006-2008	Chair, Research Committee, Department of Psychology, College of William & Mary
2005-2006	Chair, Search Committee for Tenure-Eligible Faculty Position in Perception
2004-2006	Member, Research Committee, Department of Psychology, College of William & Mary
2003-2004	Member, Search Committee for Tenure-Eligible Faculty Position in Cognitive Neuroscience
2002-2003	Member, Colloquium Committee, Department of Psychology, College of William & Mary

Additional Service or Teaching-related Activities

2015-present	Co-chair, W&M Neurodiversity Working Group
2014-2015	Internal member, Review Team of W&M Department of Sociology
2012, 2013, 2017	University Teaching Project
2012-2015	Member, W&M Neurodiversity Working Group
2012-2014	Reviewer, Charles Center Summer Research Fellowships
2009-2013	Member, Aging and Health Services Research Advisory Council to the College of William & Mary Center for Excellence in Aging
2006-2008	Secretary, Board of Directors, Williamsburg Child Care Center
2005	Participated in a May seminar at the College of William & Mary to evaluate the undergraduate neuroscience curriculum
2003-2006	Member, Virginia Youth Tobacco Project Research Coalition
2003-2009	Research Partner, The Center for Excellence in Aging and Geriatric Health

- 2003-2005 Member, Steering Committee, Society for Young Neuroscientists and Professors in the SouthEast (SYNAPSE)
- 1998 Student member of Preparing Future Faculty Committee Visiting Howard University
- 1995-1996 Student member of Colloquium Committee at the University of New Hampshire
- 1995 Student member of Faculty Search Committee at the University of New Hampshire
